MEMBERS SPRING SHOW

	<p><u>Div 1</u> Trumpet.</p> <p>One flower per stem; longer corona (i.e. 'trumpet') at least as long as the perianth segments ('petals').</p>		<p><u>Div 8.</u> Tazetta.</p> <p>Three to twenty flowers per stem, perianth segments spreading (not reflexed) and usually fragrant</p>
	<p><u>Div 2.</u> Large Cupped.</p> <p>One flower per stem; shorter corona (cup) is more than a third but less than equal to the length of the perianth segments (petals).</p>		<p><u>Div 9.</u> Poeticus.</p> <p>Usually one flower per stem; perianth segments white, corona very short or disc shaped, usually with a green/yellow centre and red rim but sometimes of a single colour. Usually fragrant.</p>
	<p><u>Div 3.</u> Small Cupped..</p> <p>One flower per stem; corona (cup) not more than a third the length of the perianth segments (petals).</p>		<p><u>Div 10.</u> Bulbicodium.</p> <p>Usually one flower per stem, perianth segments insignificant compared to the corona, anthers dorsifixed (i.e. attached central to filament); filament, style curved.</p>
	<p><u>Div 4.</u> Double.</p> <p>One or more flowers per stem; double the number of perianth segments or the corona or both.</p>		<p><u>Div 11.</u> Split Corona.</p> <p>Corona (cup or trumpet) is split usually for more than half its length. Either with the corona segments opposite the perianth usually in 2 whorls of 3 or with the corona segments alternate to the perianth segments usually in a single whorl of 6.</p>
	<p><u>Div 5.</u> Triandrus</p> <p>Usually two or more pendant flowers per stem, perianth segments often reflexed.</p>		<p><u>Div 12.</u> Other.</p> <p>This division is for miscellaneous cultivars which do not fit other classifications</p>
	<p><u>Div 6.</u> Cyclamineus.</p> <p>One flower per stem; perianth segments prominently reflexed. Flower at an acute angle to the stem with a very short pedicel.</p>		<p><u>Div. 13.</u> Other.</p> <p>This classification is for cultivars distinguished solely by botanical name.</p>
	<p><u>Div 7.</u> Jonquills and Apodanthus.</p> <p>Usually 1 to 5 (more rarely up to 8) flowers per stem, perianth segments reflexed or spreading, corona is cup or funnel shaped or flared, usually wider than long.</p>
